Teaching Experience

Central Elementary School, Commerce City, Colorado Fall 2013-Present

21st Century Technology Teacher and Librarian

- Created rigorous curriculum aligned to Common Core State Standards for grades Kindergarten-Fifth
- Collaborated with grade level teams to design hands-on lessons to support the *Driven By Data* model
- Developed culturally responsive lessons to meet the needs of all learners (*i.e. Culture Collage Project*)
- Planned, coordinated, and led school's first annual *Run for Reading 5K*
- Organized and utilized school wide iPad cart to implement in classrooms
- Prepared school-wide communicator bulletin to improve communication for the entire staff
- Mentored students in after school program focused on broadcasting and technology
- Increased accessibility of school's resources for students and faculty by restoring school library
- Introduced and maintained school website and social media accounts to enrich parent involvement

Central Elementary School, Commerce City, Colorado Fall 2010-Spring 2013

4th Grade Classroom Teacher

- Taught developmentally appropriate units using curriculums such as StoryTown, Math in Focus, Carousel, and FOSS Kits for a diverse classroom in accordance with Fourth Grade Common Core Standards
- Differentiated data-driven lessons for various learning styles using literature circles and math centers
- Coordinated a Vocabulary Parade for 4th graders to promote literacy and family involvement
- Mentored University of Colorado student interns as a collaborative teacher for four semesters
- Implemented grade-level *March Madness* math fact incentive competition
- Built rapport with families by organizing a back to school night for grade level and by making home visits
- Supported 21st century learners by designing a student- friendly website and classroom blog
- Led PBIS assemblies that promoted excellence in the classroom for our school wide behavior system
- Collaborated with grade-level teachers in data-driven meetings to enhance teaching and learning experiences for students
- Evaluated students using formative and curriculum-based assessments such as TCAP, MAPS, DIBELS and DAZE assessments to accommodate different learning styles
